code

Right in the heart of Dutch decision-making action. The Hague's first tech-community on a mission to change the world. A place where 'hipsters, hackers & hustlers' gather to bring innovation to life.

**Welcome to The Hague Tech,
11.000 m² of genius, know-how
and can-do.**

If you're on a mission to change the world, the worst thing to do is to keep this to yourself. To find the ingredients for success, you need to share your ideas with the right crowd at the right place and time. The future of technology is a matter of effort and focus. It's about bridging the gaps between ideas and reality. Between talent and opportunity.

The Hague Tech fills the gaps by connecting genius ideas with people who know how to build ground-breaking products and services and those who can bring innovation to the masses.

Fill the gaps, ***join The Hague Tech!***

Entrepreneurs with an appetite for innovation need more than a top notch office with ditto espresso machine.

They need the genius, the know-how and the can-do. Whilst sometimes these qualities are combined in just one person, no successful company was ever built alone.

The Hague Tech brings together talented people. Those creative minds, engineers and saleswomen needed to get things done. Combined with investors, government officials, CEOs, students, employees, coaches, colleagues, friends, fools & family we unlock the perfect ecosystem for innovation.

We help
you grow

It's our ambition to help you grow. 24/7, but only when you need it. We do this with a team of hipsters, hustlers and hackers from a winning location. Right around the corner of the Dutch Parliament and Central Station. With The Hague's business district on your left and university and colleges to your right. Talent is not a rare thing, it's just locked up sometimes. **Join The Hague Tech!**

We offer the best (flexible) office facilities with modern contracts. An academy with inspiring events, workshops & masterclasses. A massive international network and, perhaps more important, those people closer by that help you move forward when you're a little stuck. Sometimes this is nothing more than the opportunity to grab a beer with a peer. The best ideas are after all said to be written on a beermat.

Is your ecosystem missing a plant?

Get it at The Hague Tech!

WAKE UP!

A chance for great encounter and new inspiration is always present at our coffee machine. The place where the magic happens. P.S. We have tea too ;).

OPEN SPACE

At The Hague Tech you will meet enough people that are worth talking a bit longer to in person. Our mini lounges are just the place for this.

GROW WITH THE FLOW

Is your idea successful and ready for growth? At The Hague Tech your office space grows along with you. We have flexible desks as well as designated offices.

FOOD FOR THOUGHT

Eating lunch with your peers. Make your own salads, sandwiches and energy drinks in the kitchenette. Or go outside to one of the great cafés in the city centre.

YOU'RE INVITED

We are nothing without the world around us. Therefore we'd love to show you and your network the latest during our events. Take a seat on the stand.

AHA!

You just had that aha-moment, now you need focus to get a step further. Use one of the private offices to get going.

HIGH WAY VIEW

Are you stuck or need time to work on an idea? Get inspired by our highway view at the window bar or windowsill lounges to get in the right mood.

OPEN SPACE

Sometimes, you need a more informal place to work from, with time for chat. Sit down at our kitchen table or nestle yourself on the couch in the shared living room.

SYNERGY

The Hague Tech offers space to divide and multiply. Use one of our meeting spaces for a get-together.

The Hague Tech offers the space you need right now, and in the future. Our dynamic building can fulfill all your needs. **And of course we serve great coffee, office facilities and kick ass WiFi.**
